

California Regional Water Quality Control Board-Los Angeles Region
Contracts and Grants Program

Project Summary: 04-093-554

Project Number:	04-093-554	Project Status:	Active	Grant Manager:	S Gettel
Project Name:	Mission Creek Restoration Project	Project on Schedule:	No		

Project Details

Watershed:	Mission Creek	Project Description:	Restore Mission Creek by removing trash, restoring the stream channel, planting native vegetation, and installing NPDES-conforming screens to capture trash. At-risk youth from LACC's Adult Corps program will undertake the majority of the labor. The project includes an outreach plan to educate community members and park users about the Creek and other wetlands issues. Interpretive signs will be installed to educate the public about the history and importance of this stream along with information about BMPs.
-------------------	---------------	-----------------------------	---

Problem Statement:	Outcomes:	This project seeks to alleviate trash flowing from Legg Lake, an impaired water body, from entering Mission Creek and then flowing into the Rio Hondo. An accumulation of trash along the one-mile stretch of shore of Mission Creek will also be removed.

Project Summary: 04-093-554

Date:	6/30/06	Comments:
Type:	Status report	This project has fallen behind for various reasons, including the loss of the Project Director early on during the project term. The new Project Director is working to get the project up to speed. The installation of a trash collecting barrier screen and the start of the restoration of a portion of Mission Creek are expected to occur in July.
